## Skills

**Languages:** C#, C++, JavaScript, TypeScript, SQL, GO  
**Frameworks:** .NET, .NET Core MVC, Remix.Js, Next.Js, React Native  
**Frontend:** React, TailwindCSS, Framer, ShadCN, Redux, Zustand, HTML, CSS  
**Backend:** Node Js, Express.js, GO, REST API's, FastApi  
**Database:** MongoDB, PostgreSQL ,MSSQL  
**DevOps & Cloud:** AWS (S3, EC2), Terraform, Ansible, Git, GitHub Actions, Docker, Jenkins, Kubernetes  
**Tools:** Drizzle

## Work Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                          |
